PROFESSIONAL SUMMARY

Frontend Developer building scalable web and mobile applications using Next.js, React.js, and React Native. Skilled in TypeScript, API integration, state management, performance optimization, and SEO in Agile environments.

SKILLS

- Languages Markup: TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS
- Frameworks Libraries: Next.js, React.js, React Native (Expo), Angular, Zustand, Redux, TanStack Query
- UI Styling: Tailwind CSS, shadcn/ui, Ant Design
- Tools Practices: Git, GitHub, GitLab, REST APIs, SEO, Agile/Scrum

PROFESSIONAL EXPERIENCE

Global Diary – Mid Frontend Developer

Aug 2025 – Present

- Worked on a **monorepo architecture** to manage multiple applications and shared packages efficiently.
- Architected a scalable hybrid state management system using **TanStack Query** and **Zustand** to support real-time user interactions across multiple modules.
- Developed normalized data stores with a synchronization layer to maintain consistent UI state across different views and features.
- Implemented pagination-safe data merging and upsert logic to reliably track interaction state across paginated API responses.
- Integrated **TanStack Virtual** to optimize rendering performance for large data sets, including feeds and interaction-heavy lists.
- Implemented **SEO best practices** including metadata management, structured content, and sitemap integration to improve search visibility.
- Improved application performance and stability by optimizing renders with selector-based subscriptions and maintaining clean, production-ready builds.

Aarawantech – Associate Frontend Developer

Dec 2023 – Jul 2025

- Developed Travo Rider and Travo Driver mobile applications using **React Native (Expo)**.
- Implemented authentication, role-based access control, and profile management workflows.
- Developed a **Fintech PWA** for **HoReCa** using **React.js**.
- Delivered merchant onboarding, outlet management, POS billing, cart, order processing, and transaction settlement.
- Token management and auto refresh functionality along with centralized error handling with **axios interceptors**.

Neural Evo – Frontend Developer Trainee / Intern

Jun 2023 – Nov 2023

- Developed official website using Next.js, TypeScript, and Tailwind CSS.
- Built an **Astrological Insights Platform** displaying charts and user-specific data.
- Integrated REST APIs and managed async state using Redux Async Thunk.
- Implemented Google Analytics, cookie consent, and sitemap generation.

- Participated in Agile methodology including stand-ups and sprint planning.

PERSONAL PROJECTS

E-Commerce Website

- Built a responsive e-commerce application using Next.js and TypeScript.
- Implemented JWT authentication, protected routes, cart management, and order history.
- Used React Hook Form with Zod for form validation.

Blog Platform

- Developed a modular blog application using Angular, TypeScript, and SCSS.
- Implemented CRUD operations for blog posts and comments.
- Integrated WebSocket for real-time comment notifications.
- Used RxJS for reactive data handling.

EDUCATION

Bachelor of Computer Science Information Technology
Patan Multiple Campus, Tribhuvan University

2019 – 2023
Lalitpur, Nepal

High School Diploma
Public Gyan Jyoto Secondary School

2016 – 2018
Tulsipur, Dang, Nepal
